Lake Winnipeg's Legacy: Framing the Issue

Panel discussion in connection with William Pura's Inland Sea photographic exhibit

**August 19, 7pm (doors at 6pm) at Gurevich Fine Art
62 Albert Street, Winnipeg, Manitoba**

Lake Winnipeg is the 10th largest freshwater lake in the world; an iconic body of water that has shaped both the physical geography of Manitoba and the shared cultural experiences of its citizens.

Humans have interacted with this 'inland sea' for centuries – and our actions have left a mark.

Gurevich Fine Art and the Lake Winnipeg Foundation invite you to a panel discussion that will explore the ways we live with our great lake and how we can protect it for future generations.

Panelists include:

- **William Pura**, an artist whose striking photographs capture the evidence of human activity around Lake Winnipeg. A collection of Pura's work, *Inland Sea*, opens August 7 and is on display at the gallery until Aug. 27.
- **Alexis Kanu**, executive director of the Lake Winnipeg Foundation, an ENGO working to restore the health of Lake Winnipeg by addressing the root causes of harmful algae blooms.
- **Noah Erenberg**, a lakeside resident whose documentary work has focused on the people and communities who call Lake Winnipeg home.

Admission is free! All lake-lovers welcome!

Join us on Wednesday, Aug. 19, for a unique event! Surrounded by amazing photographic art, Lake Winnipeg: Framing the Issue will showcase a range of perspectives about our great lake!
