This summer was a busy one for LWF staff and volunteers; over the past few months, we've been connecting with lake-lovers at a variety of outreach and fundraising events throughout the province - from Paddlefest to Icelandicfest to our signature Walk for Water events, held this year in Dunnottar, Gimli and Victoria Beach. (Make sure to check out our community-specific photo galleries from those events [here](#).) We've also been exploring the unique natural ecosystems that make Manitoba so special.

Just for fun, here's a few of the shots we snapped along the way. We hope you had a wonderful summer season!
