

**LAKE  
WINNIPEG  
FOUNDATION**

## Newsletter

LWF publishes a newsletter, *The Watershed Observer*, twice a year. Our latest issue explains how community-based monitoring can be leveraged to complete the data-to-impact cycle, reflects on the legacy of limnological legend David Schindler, and shares details about the Lake Winnipeg Indigenous Collective's new website and podcast series - plus more!

Read or download an online version of the [Watershed Observer Spring & Summer 2021](#).
