

Shaun Loney – MAYORAL CANDIDATE

Daniel and Alexis

We have included this in our platform which is to be released this week.

[Phosphorus Compliance at North End Water Pollution Control Centre](#) - The Lake Winnipeg Foundation is asking Winnipeg's next city council to approve funding in the 2024-27 budget for increased digester capacity. They also recommend a rethink on the necessity for nitrogen removal. This is a priority for discussions with other levels of government.

It's a big item to commit to without access to costing, options and city financial projections. I do look forward to working with you in figuring a solution out.

Shaun
