

Kelly Ryback – ST. JAMES

Hello Alexis and Daniel

Thank you for inviting me to respond. As I am not an incumbent, I am not privy to the City of Winnipeg's full financial status. I assure you the health of Lake Winnipeg is one of my top priorities. Without full knowledge, my response is 'Yes' to questions 1 and 2.

My response to question 3:

It is critical to Winnipeg and the rest of the world to have a healthy Lake Winnipeg. Winnipeg's reputation would be tarnished if the city does not address its contribution to algae blooms in Lake Winnipeg. Continued algae blooms would be an ecological disaster. Industries and livelihoods are affected as are tourism, recreational and sporting activities. Of utmost importance is the health of the lake, vegetation, fish, and wildlife.

Please contact me if you have any further questions. I look forward to continuing the dialogue and striving for meaningful solutions.

Regards

Kelly Ryback

Councillor Candidate for St. James
